Mike,

Attached are the Sasaki approved copies of the PFAS test results for Meinig for your records, thanks.

Subject: Meinig Fieldhouse - Turf Test Results

Hi Mike,

I left you a VM earlier as well regarding the attached test results. They appear to meet all the requirements. The turf will be arriving on site Monday morning with the indoor turf install to follow thereafter. The outdoor turf install is still another couple weeks out. It is my understanding the site plan approval required that these test results were required prior to turf installation. Please let me know if you need anything else.

Thanks,
Dustin
